

Engineered to meet the demands of the market:

Post-frame efficiency with the durability of concrete

Lifetime guarantee

10,000 psi precast concrete

60,000 psi A706 rebar

Powder-coated steel bracket

Sized to fit laminated columns and solid posts

PROTECT YOUR BUSINESS.
BUILD WITH PERMA-COLUMN.®

Build better, build stronger, build to last.

Keep your reputation out of the dirt

The threat of rotting posts is eating away at post-frame business opportunities. News travels fast, and your customers are quickly learning that post-frame construction has advanced beyond the decaying practice of burying wood columns in the ground.

Capitalize on post-frame done right

Perma-Column® precast concrete columns outperform traditional wooden posts and easily integrate into your current post-frame building process. Your structures can now achieve the durability of concrete without the costly expenses of a continuous pour foundation.

Elevate your business

The integrity of your business is defined by the integrity of your structures. Build on your reputation for quality by providing your post-frame customers the industry's most enduring foundation: The Perma-Column® system.

Tell your builder you want a permanent foundation:

Post-frame efficiency with the durability of concrete

The sustainable solution guaranteed to never rot

PROTECT YOUR INVESTMENT. BUILD WITH PERMA-COLUMN.®

Build better, build stronger, build to last.

Start off on the right footing

The future of your building investment depends on the performance of a well-engineered foundation. Post-frame construction has advanced beyond the decaying practice of burying wood columns in the ground. Perma-Column® elevates wood out of the ground and will last for generations — guaranteed.

The durability of concrete, the value of post-frame

Perma-Column® precast concrete columns outperform traditional wooden post-frame columns. They are significantly lower cost than a continuous poured concrete foundation. You will avoid thousands in rotting wood repair costs.

Demand greener, safer, smarter

Chemically treated wood can be toxic to your soil, and it's still going to rot. Plastic sleeves and wraps will only delay the inevitable. The most sustainable way to protect your investment is the Perma-Column® system.
